

REMARKS/ARGUMENTS

The amendment to the specification was made to add a compound that was inadvertently omitted from the specification during the translation process of the PCT Application (PCT/JP03/00153). The amendment is supported by the original PCT Application and on page 37, lines 18-20 of the specification as originally filed. Therefore, no new matter is believed to have been added. An action on the merits and allowance of the claims is requested.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
